The 2nd Session of the Land Consultative Forum (FCT) was held in Beira, Sofala Province

Page 7

Dear readers,

Land is an important asset for income generation and wealth creation, it has been at the center of a long-standing debate about different choices and visions for growth in rural areas, and is of increasing importance to urban development. In 1997 Mozambique adopted a new legal framework on land tenure aiming to address equitable access to land tenure security for local communities and private sector including recognition of customary rights. This new legal setup has been recognized as a good policy and legal framework. Implementation of this framework had been slow and required an efficient land administration system to play the primary role in increasing land tenure security and improving access to land, thereby enabling the use of this asset most effectively for economic growth. The lack of simple, fair and clear procedures for acquiring and transferring rights to land had been a constraining factor for private sector investment.

There have been concerns about improving and securing local community and small farmer land-use rights. Local communities that solicit assistance from the Community Land Initiative will benefit from registration of land rights and reduced transaction costs through improved security for productive activities on their land and increased opportunity for arrangements with outside investors for business development.

The MCA program through the Land Tenure Project is supporting the National Land administration Institutions in order to increase Land Tenure Security and improving Access to land. In our October Newsletter we have focused on the positive results achieved in the Land Tenure Service Project which is working on improving policy, upgrading the public land administration agencies (the title registry and cadastre), and facilitating site-specific land access. The Land Project is projected to benefit 1.9 million people by 2015 and 2.6 million people by 2029. The value of investment on land affected by the Project will increase and the time and cost to register a land use right will be reduced.

Current results from the Implementation of the land regularization program are encouraging with overwhelming participation from all the project stakeholders and the key beneficiaries. Furthermore HTSP, DNTF and MCA has conducted training for Head of Municipalities and districts and technical staff in Nampula in October in preparation for the outreach activities in the Land Tenure Project.

We would like to extend out thanks to the whole Team and in particular to Mario Ruy Marques (MCA-Mozambique Land Specialist) and Carlos Mugoma (MCA-Mozambique Land Tenure Project Manager) and HTSPE and DNTF (National Directorate for Land and Forests) for their contribution to this Newsletter.

Paulo Fumane
CEO MCA-Mozambique

MCA SUPPORT FOR EFFECTIVE LAND ADMINISTRATION AND ACCESS
The Land Project is comprised of three mutually reinforcing activity areas:

Site specific facilitation of land access

Facilitating access to land use by helping people and business with (i) clear information on land rights and access; (ii) resolution of conflict with more predictable and speedy resolution of land and commercial disputes – Creates better conditions for investment and business development; and (iii) registering their grants of land use (land titles to long-term or perpetual-use rights) (the **“Site Specific Activity”**)

The Mozambique Government committed to undertaking a mapping and inventory initiative to identify and record the actual legal and economic situation of land holdings including the type of land rights (by state authorization, good faith and community) and existing land uses. In the selected, more economically dynamic areas, this will result in readily available information for many purposes including for the planning and the management of access to natural resources (including land), a reduction in the risk of land disputes, and quicker and easier access to land for investors and small businesses (farm and non-farm). Communities increasingly seek to enhance the security of their tenure or to engage in business relations with investors through joint ventures or the leasing out of their lands

(i) the implementation of the mapping and inventory exercise and, as part of that process, the piloting of a sound approach to area-wide registration of land rights in selected areas characterized as more dynamic and/or conflictive;

(ii) provision of additional funding to the existing program of support for the Community Land Initiative to allow its operation in Zambézia, Nampula and Niassa Provinces (the land fund is already operating in Gaza, Manica and Cabo Delgado with support from other donors); and

(iii) make available simple informational tools to streamline investor and farmer access to land in northern Mozambique, such as legal information, guidelines regarding the requirements for negotiating land access with local communities, printed site maps showing land use and existing titles, and other tools, e.g., specialized seminars.

Policy review & monitoring

Support for an improved policy environment, including addressing implementation problems for the existing land law and engaging in regulatory review to improve upon it (the **“Policy Activity”**);

(i) Development of a national land administration vision and a coherent implementation strategy based on a needs assessment that will examine regulations, administrative processes, information systems, institutional structure, and human resources;

(ii) Technical and logistical support for a process to assess and monitor progress on land legislation, in coordination with the Land Policy Consultative Forum created with support from the Land Project;

(iii) Developing and Implementing a broad campaign of public education, outreach and awareness raising of non-judicial dispute resolution methods with partners, including but not limited to Centro de Arbitragem, Conciliação e Mediação, as effective cost and time-saving mechanisms to resolve disputes;

(iv) Investment in expanding an on-going program for legal and judicial training, training for mediators and arbitrators, studies and advocacy of the Legal and Judicial Training Center (“CFJJ”), as well as developing new curriculum on mediation and arbitration training for CFJJ’s paralegal students working in the northern provinces on commercial and land issues;

(v) Advisory services, including international best-practice knowledge transfer, to the National Directorate of Lands and Forests

Land administration capacity-building

Building the institutional capacity to implement policies and provide quality public land-related services (the **“Capacity Building Activity”**);

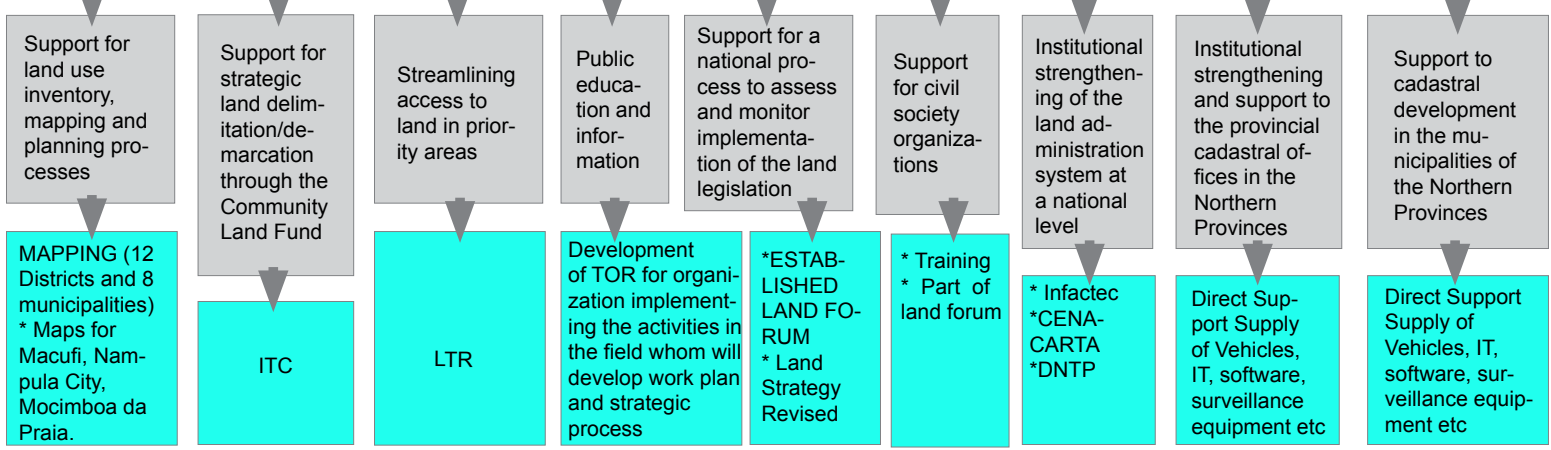

Land Administration Capacity Building is establishing an effective land registry system, more transparent, reliable and faster processes for accessing land and meet, improving the investment climate while ensuring security of tenure for land-holding households and local communities. Affordable service fees, improvements will generate the revenue base to sustain high quality services over time. At the municipal level, effective land administration capacity is reinforce decentralization by bolstering the information base for investment and fiscal planning.

(i) Implementation of a comprehensive approach to professional development and training (including in local requirements and international best practices in cadastral and registration information systems, surveying and titling procedures, land law, and other topics) at the national, provincial and local levels, thereby increasing knowledge and awareness of land tenure issues, land records management and surveying techniques, and providing a better understanding of development trends in land policy and in the demand for their services;

(ii) Development of the National Land Information System (LIMS)

(iii) Investment in and technical assistance to the upgrading of facilities for four provincial and selected district land service offices;

(iv) Investment in and technical assistance for cadastral development in selected municipalities, including pilot implementation of cadastral registration in selected neighborhoods within each municipality. The Land Project will develop methods and criteria to select the particular districts, municipalities and neighborhoods

Summary of Status for Land Tenure Project:

Mapping of Land use: Mocimba da Praia and then Nampula City followed up by Mecufi all have been successfully concluded and Monapo is in the final stage of conclusion. Six more city maps will be produced by the year 2013. A total of eleven sets of land use maps are expected to be delivered during the course of 2012, while for the last year of the compact implementation two land use map sets are expected to be concluded. In total 20 land use maps corresponding to 8 district land use maps and 12 municipalities land use maps will be available by September 2013.

ITC: There are additionally 14 new projects identified with a launch scheduled for the second semester of the year 2011, benefiting 65 communities. The plan is to commit the remainder of the fund for grants until the first quarter of 2012. The NAC (National advisory committee for ITC) whose last meeting was held in May, in Lichinga advised the implementing ITC Service Provider to strengthen their surveillance. Further details on the ITC program on page 5.

In the LTR Program, the field camp work which began in the City of Nampula on the 14th March was hereafter followed by Monapo, on 21st March, in Mocuba on the 4th April and Lichinga and Mocimba da Praia on 18th March. In Quelimane on 3rd May and then in Pemba on 9th May with Cuamba last on the visit. The steps followed by LTR are (from field work to issuing of DUAT): training, awareness, registration; data processing, display of notices, and the issuing of titles.

The Regularization of Rural Land started in June with Nicoadala district completed on the 30th September, followed by Monapo and Mecufi. There will be at least 1500 DUATS issued for the first year of field activities. By end of Compact we will have 6235 DUATS Issued. It is projected by 2012 another, five districts will be covered Malema, Mocuba, Mocimboa, Lichinga and Majune and by 2013 a further seven districts.

Policy Activity: National Land Project Advisory Committee: The fifth CAPT meeting took place in June followed by DNTF's Annual Meeting in Quelimane. The awareness/outreach campaign on land has been launched based on the message and work plan approved by MINAG. Already under implementation the first outreach provincial seminar was held in Nampula on the 18th October which was great success participated by all stakeholders.

Capacity Building: The Curriculum review of INFATEC: The formulation report regarding the units of competence in INFATEC was completed with a seminar held to improve this report. INFATEC sent report to PIREP. At present the process is awaiting approval from PIREP and Ministry of Agriculture.

Rehabilitation which was concluded successfully to cadastral offices, which is part of the Direct support to Districts and Municipalities have taken place in Quelimane, Mocuba, Monapo, Lichinga and Cuamba. At present works are been concluded in Pemba and Mocimba da Praia. Additional work will be scheduled for Mocuba and Nampula.

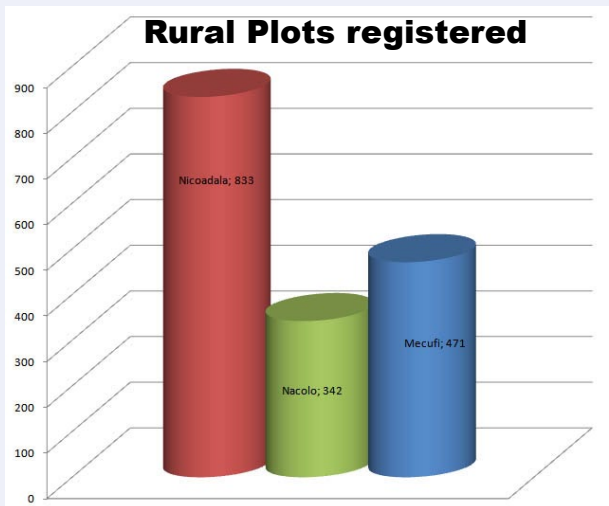

With regard to works successfully completed in the districts:- Lichinga, Majune and Moma, Mocuba, Macufi and Morumbala with works proceeding well in Nicoadala and Malema. Rehabilitation works to be launched in the Niassa district of Lago.

SPGCs: There are three out of four completed successfully. SPGC and Municipalities also received IT Equipment, software, surveying equipment and Vehicles. They are also in process of receiving airconditions and furniture. Districts received IT Equipment,software and basic hand held GPS and in process of receiving furniture, cars and equipment.

MCA-Mozambique rehabilitated 2 floors of the INFACTEC Building (classrooms and bedrooms) and built a new women's dormitories. Equipment was also given to the library, including books, computers, IT equipment and software for the GIS laboratory with Surveying equipment to support the lectures.

AFTER: Rehabilitated by MCA-Mozambique

SITE SPECIFIC ACTIVITY: Community Land Initiative (iTC) - (report prepared by KPMG for MCA)

Background: The signed compact include a land component that supports the improvement in efficiency of the land rights registration systems and increased capacity to effectively administer land rights, as part of supporting Private Sector Development in Mozambique.

The Land Component addresses a number of issues related to land administration and land tenure security in the country. The goal is to increase the tenure security over land and other natural resources of rural and urban dwellers in Cabo Delgado, Zambézia, Niassa and Nampula, as well as to encourage increased investment and more sustainable and equitable use of these resources for poverty reduction and economic growth.

The Land Project is supporting both Government and stakeholders enabling them access to local and international best practices that improves land policy and its regulatory framework. In the meantime, the Land Project will help specific beneficiaries meet their immediate needs for registered land rights and better access to land for investment. Within the Land Project, the Community Land Initiative (iTC) is one of its three pillars. The focus is on providing financial, technical and planning services to rural communities to stimulate economic development within the provincial and district context to enabling the security of land and natural resources rights.

The objective in providing the services of the iTC is threefold:

1. iTC should safeguard the livelihoods of communities and social groups in the three target provinces by assisting to secure land tenure and natural resource rights, thereby protecting against encroachment and displacement of their rights.
 2. iTC should operate pro-actively in communities where the potential for conflict between the community and natural resource users/investors is highest.
 3. iTC should support and assist local communities and social groups in securing their rights to potentially valuable natural resources that can be used to sustain or tap on economic opportunities.
- KPMG together with the Natural Resource Institute (NRI) has been selected to manage iTC funds.

Objectives

- (i) Safeguarding the livelihoods of communities and social groups in the three target provinces by assisting them to securing land tenure and natural resource rights, thereby protecting against encroachment and displacement of the rights of local communities and social groups.
- (ii) Operating pro-actively in communities where the potential for conflict between the community and natural resource users/ investors is highest.
- (iii) Supporting and assisting local communities and social groups secure their rights to potentially valuable natural resources that can be used to sustain or create economic opportunity.

Activities

In order to meet the above objectives, the key activities of the Community Land Initiative as per the ToRs, are as follows:

- Establish and support the iTC offices and operations of Provincial Steering Committees (PSCs) in three provinces;
- Administer and manage the iTC in the three selected provinces. Value of grants to be funded directly by the MCA to grantees is \$3.6 million. The indicative values for the total yearly grant project commitments are \$300,000 for year 1, \$900,000 for year 2, and \$1,200,000 in years three and four;
- Mobilize and manage the technical support component;
- Increase public awareness of iTC objectives and demand for the iTC products in targeted areas; and
- Document lessons for policy influencing and/or adjustments to the iTC’s operations or mechanism.

Gender in iTC activities: Gender and social issues are an integral part of the iTC’s implementation strategy. Gender and social issues are integrated in the strategic evaluation and this will be the basis for the development of action and monitoring plans; data and information on land tenure and land use will deliberately be disaggregated by gender relating to, and will seek to evaluate gender participation in the land and other natural resources decision making.

Land Consultative Forum (FCT): On March 24 at Hotel VIP in Maputo, the 1st Inaugural Session of the FCT (Land Consultative Forum) was held with the theme “A platform for a debate on Land issues”. The participants of the forum familiarised themselves with the forum objectives, mandate, composition and set the agenda. The presidium of this forum was formed by His Excellency Minister of Agriculture, Her Excellence the Minister of State Administration, Her Excellence Governor of Maputo City, Director of Land and Forestry and the MCA-Mozambique Executive Director Paulo Fumane.

The main objectives were to analyze the current status of land administration in Mozambique, analyze and discuss the transmission DUAT's, improvements and infrastructure, review process of taxation on land, discuss the creation of a single registry entry of land, review the model of community consultations and discuss the planning process for land use, among others. The meeting was a success with the Minister of Agriculture thanking all the participants for their valuable contributions concluding that in general better and more effective interaction and collaboration needs to take place between the several Institutions and State Departments, furthermore he noted that there is a need to streamline the (new) procedures of zoning and obtaining land. It was agreed during the meeting that all the (priority) issues will be studied thoroughly by experts in the field and that the results will be presented at the next session of the FCT. Out of 8 issues selected from the first session, four were to form the base of discussion for the agenda for the 2nd session. Prior to the 2nd session consultants developed the four points that were presented at the 2nd session.

The 2nd Session of the Land Consultative Forum (FCT) that was held in Beira, Sofala Province in September 22, 23 attended by 120 people that included three Ministers that included Minister of Agriculture, who chaired the meeting, the Minister of Mineral Resources and the Minister of Fisheries, two Deputy Ministers (State Administration and Justice), MPD Permanent Secretary, Mayors, and District Administrators representatives of several ministries, CPI, representatives of the private sector and smallholders, DPAs (Provincial Directors of Agriculture), SPGCs (Provincial Cadastral Officers) and MINAG staff.

The meeting agenda included the Proposal for streamlining DUAT Transmission in rural areas, the proposal for improvement of Community Consultation process, the Strengthening of Land Tenure for individuals at community level, the Land Use Planning and the Land Administration Strategy. All points but the last one were presented and discussed in the plenary session and further detailed during the group discussion.

The first presentation on the transmission of DUAT's, by the DUAT holders in regard to the transfer of their rights to the third parties. The law stipulates that the State need to authorize such operation, on the grounds that it is the state who authorizes the issuance of DUATs a requirement that makes the process of transmission, time consuming and cumbersome. To overcome the problem, the presenter proposed that changes need to be made in the legislation to make the process efficient by removing the requirement of State authorization. After lengthy discussions both in plenary and in group, FCT members acknowledged that the bureaucracy required for the transmission of DUATs is a contributing factor to the limited level of land-related investments, requiring that procedures be simplified. It also recommended that the ways to simplify such procedures be discussed by the Grupo de Reflexão, a technical support group to the FCT, and be submitted to the relevant Government bodies for approval and adoption.

However, there was a consensus in the meeting that, simplified DUAT transmission procedures will be viable in the following conditions: If there is a Definitive Title of DUAT, there needs to be a massive support to the smallholders to formalize their rights to the land they occupy (through systematic titling and issuance of DUATs), there needs to be a limit to the area to be transferred and High pressure areas should be given top priority.

The presentation on Land Administration Strategy, was informative and updated the audience on the latest accomplishments of the Land Sector and highlighted the challenges. It attracted the audience's attention due to the innovation that will lead to systematic titling of land. This point is somewhat linked to the previous point, in that it will foster the implementation of the simplified DUAT Transmission procedures. With regards to the points 2, 3 and four, emphasis was placed on the need to improve the community consultation mechanism, in order to give the community members an opportunity to be heard when the issue is allocation land to investors, which can provide them an opportunity to negotiate benefits while preventing conflicts; the need to formalize individual rights within the community land through systematic registration and to accelerate district land use planning as a way to foster economic development and prevent intra and inter community conflicts were the other two points discussed both in plenary with the participants, especially coming from the grassroots, expressing their satisfaction of the benefits that can arise from such intervention and warning that there needs to be coordination at all levels. All these points where favorable accepted by the participants.

SUMMARY OF THE CURRENT STATUS FOR PROCESSES

	Submitted to SPGC'S			Field		Partnerships
	Delimitations	Demarcations	Area	Delimitations	Demarcations	
Nampula	16	3	57.989	5	1	2

Kick off meeting of RAP for Namialo - Mecututchi Road (Lot 1) , held on 14 September 2011 in Namialo

The kick Off meeting took place on 4th September 2011 at the Agricultural Technical School of Namialo and was attended by the Project Affected Persons (PAP's), representatives of the MCA, MCA-ANE and Scott Wilson as a consultant and implementer of the RAP. The representative of Scott Wilson, responsible for the implementation of the RAP, summarized the steps for the execution of the RAP, namely:

- With the cooperation of heads of the administrative posts and community leaders, the identification of the PAP's was done along the implementation area of the project (impact corridor) and the PAP's that will be resettled were registered;
- The heads of the administrative posts and community leaders issued a declaration of residence for the PAP's, confirming that they will be affected and should leave the area;
- All PAP's will be given a document indicating how much each PAP will receive. The referred document should be signed by Scott Wilson and by the PAP's;
- Identification of the PAP's that will receive compensation equal or superior to 10,000.00 Mt. The PAP's that will receive an amount inferior or equal to 10,000.00 Mt will be compensated through the respective monetary value. On the opposite side, the ones that will be receiving an amount superior to 10,000.00 Mt, need to open bank accounts so that the respective deposit can be made;
- In order to open bank accounts, the PAP's need to have identification documents, preferably identity cards;
- Scott Wilson has begun the processes of issuing identification documents with the administration of the administration posts, as well as opening accounts with BCI;
- Compensation will start when all affected meet all the pre-established requirements namely: registration card, identification document and bank account;
- The Community Liaison Officer will assist the resettlement team during the implementation of RAP activities, liaising between the consultant and the PAP's;

To facilitate collaboration and interaction in the RAP, two committees were created, which will coordinate and support the resettlement team during the activities:-

- Resettlement Coordination Committee consisting of the following : MCA, Service Providers, District Administrators, Heads of the Administrative Posts, MICOA/DPCA, Relevant Government Institutions, Community Leaders, Representatives of the

PAP's, NGO's/OCB's that operate in the area;

- Community Resettlement Committee composed of the following: Representatives of the PAP's, Representatives of the Local Administrations, Community Leaders, PROSIR, Focal Groups;

The expectation is that the PAP's will withdraw from the corridor of impact, sixty days after receiving their respective compensation. The RAP team will work in all administrative posts and follow the PAP's during their withdrawal, assuring that all PAP's are satisfied and happy with the process.

CONTRACT AWARD NOTICE NO. 29 AUGUST, 2011

MCA-Mozambique announces the award of the following contracts for the period of August, 2011:

Procurement Ref. Number:	CB-MCA-MOZ-WS-04/1-155 LOT 1 – P311
Project Name:	WATER AND SANITATION
Method of Procurement:	CB – COMPETITIVE BIDDING
Companies that submitted proposals for this bid:	1. H.A.WATER DRILLING, LDA 2. ROCK DRILLER COMPANY 3. SUGEC 4. PBG SA 5. JJR E CAPTAGUA 6. SERRALHARIA E CONSTRUÇÕES NASSER 7. G.M.TODD IRRIGATION, LDA 8. MOZAGUA 9. MAHI MATI UNIDADE DE PERFURAÇÃO LDA
Awarded To:	J.J.R. & FILHOS S.A. AND CAPTÁGUA, CAPTAÇÕES DE ÁGUA. LDA (JOINT VENTURE)
Price of winning Bid + VAT:	USD 881,851.70
Duration of Contract:	168 DAYS
Name of the Contract:	160 WATER POINTS CONSTRUCTION WORKS (03 Lots)
Summary scope of the contract:	LOT 1 – 50 WATER POINTS CONSTRUCTION WORK IN NANGADE DISTRICT – CABO DELGADO PROVINCE
Date of Award:	10th AUGUST, 2011

Procurement Ref. Number:	CB-MCA-MOZ-WS-04/1-155 LOT 2 – P308
Project Name:	WATER AND SANITATION
Method of Procurement:	CB – COMPETITIVE BIDDING
Companies that submitted proposals for this bid:	1. H.A.WATER DRILLING, LDA 2. ROCK DRILLER COMPANY 3. SUGEC 4. PBG SA 5. JJR E CAPTAGUA 6. SERRALHARIA E CONSTRUÇÕES NASSER 7. G.M.TODD IRRIGATION, LDA 8. MOZAGUA 9. MAHI MATI UNIDADE DE PERFURAÇÃO LDA
Awarded To:	H.A. WATER DRILLING LDA
Price of winning Bid + VAT:	USD 713,857.95
Duration of Contract:	168 DAYS
Name of the Contract:	160 WATER POINTS CONSTRUCTION WORKS (03 Lots)
Summary scope of the contract:	LOT 2 – 50 WATER POINTS CONSTRUCTION WORKS IN PALMA AND MOCIMBOA DA PRAIA – CABO DELGADO PROVINCE
Date of Award:	10th AUGUST, 2011

Procurement Ref. Number:	CB-MCA-MOZ-WS-04/1-155 LOT 3 – P310
Project Name:	WATER AND SANITATION
Method of Procurement:	CB – COMPETITIVE BIDDING
Companies that submitted proposals for this bid:	1. H.A.WATER DRILLING, LDA 2. ROCK DRILLER COMPANY 3. SUGEC 4. PBG SA 5. JJR E CAPTAGUA 6. SERRALHARIA E CONSTRUÇÕES NASSER 7. G.M.TODD IRRIGATION, LDA 8. MOZAGUA 9. MAHI MATI UNIDADE DE PERFURAÇÃO LDA
Awarded To:	MOZÁGUA – SOCIEDADE DE PERFURAÇÃO DE ÁGUA E PESQUISA MINEIRA Lda
Price of winning Bid + VAT:	USD 989,751.50
Duration of Contract:	168 DAYS
Name of the Contract:	160 WATER POINTS CONSTRUCTION WORKS (03 Lots)
Summary scope of the contract:	LOT 3 – 60 WATER POINTS CONSTRUCTION WORKS IN MOMA DISTRICT – NAMPULA PROVINCE
Date of Award:	10th AUGUST, 2011

CONTRACTS AWARDED FOR SMALL CIVIL WORKS, GOODS AND CONSULTING SERVICES

Procurement Ref. Number:	CB-MCA-MOZ- WS-01/11-156 – (Lot 1) P314
Project Name:	WATER AND SANITATION
Method of Procurement:	CB – COMPETITIVE BIDDING
Companies that submitted proposals for this bid:	1. MOTAENGIL & HIDROÁFRICA 2. JV CMC/CETA 3. EDIFER & JJR 4. UNIPUMPS 5. OPWAY 6. SETH 7. ACA & OIKOS 8. SUGEC 9. MONTE ADRIANO & CASAIS 10. FDO & ABB 11. PBG 12. ENSA
Awarded To:	JOINT VENTURE CMC/CETA
Price of winning Bid + VAT:	USD 23,932,995.33
Duration of Contract:	504 DAYS
Name of the Contract:	REHABILITATION AND EXPANSION OF NAMPULA CITY WATER SUPPLY SYSTEM (2 LOTS)
Summary scope of the contract:	LOT 1: INTAKE AND WATER TREATMENT PLANT
Date of Award:	29th AUGUST, 2011

Procurement Ref. Number:	CB-MCA-MOZ- WS-01/11-156 – (Lot 2) P315
Project Name:	WATER AND SANITATION
Method of Procurement:	CB – COMPETITIVE BIDDING
Companies that submitted proposals for this bid:	1. MOTAENGIL & HIDROÁFRICA 2. JV CMC/CETA 3. EDIFER & JJR 4. UNIPUMPS 5. OPWAY 6. SETH 7. ACA & OIKOS 8. SUGEC 9. MONTE ADRIANO & CASAIS 10. FDO & ABB 11. PBG 12. ENSA
Awarded To:	JOINT VENTURE CMC/CETA
